

PROJECT CHARTER

PROJECT TITLE	Software Development for Package Deliverer Drones	DATE	02.10.2015
TEAM NAME	Team Ratchet		

TEAM MEMBERS

NAME	STUDENT NUMBER
Mehmet Taner ÜNAL	150130702
Cem Yusuf AYDOĞDU	150120251
Ozan ÖZYEĞEN	150120115
Ahmet YILMAZ	150120020
Alican MERTAN	150120007

PROJECT SYNOPSIS

Software for drones based package delivering system will be implemented.

PROJECT OBJECTIVES

The project must be released within the next year. At least 7% revenue increase must be obtained by the project.

PROJECT SCOPE

Automated Velocity Control

Localization of Drone on Map and Navigation to Estimated Route

Communication System for Failure Detection

RISK

MEASURABLE TARGETS/GOALS

GPS device malfunction may lead drones to fail reaching the goals and that may extend the test durations.

Concluding organisation outline

02.11.2015

Finalisation and budget approval

03.12.2015

Development and grading positions

01.01.2015

Hiring a manager

10.03.2015

Filling the remaining positions

15.08.2015
