

# MEASURING THE USABILITY OF GIMP

TUĞBA ÖZKAL 150120053

CEM YUSUF AYDOĞDU 150120251

EMRE CAN AGATAY 150110023

# Introduction;

- ▶ After having the results that GIMP is one of the most preferred and user friendly image manipulation tools from our first study, we conducted a second research on matter in order to reach a more precise conclusion and see the position of GIMP more obvious against its arch rival: Photoshop. In this experiment, we compared the times passed while participants were performing same set of tasks with both tool and observed that GIMP has slightly higher usability than Photoshop.
