Innovation and Technology Management

Project Presentation

The following criteria will be considered while assigning grades for the group presentations of your projects. Please cross the boxes in the column corresponding your group ID. The first part of the evaluation criteria (1-5) is used to assess the presentation skills of the presenting team, whereas the second part is used to assess the project. The point to be written into the boxes can be 0 to 10, based on the success in the given criterium. The points will be discussed within the evaluating team members, after the presentation and Q&A time for the presenting team is over.

Evaluating group ID and name:

Evaluating group members:
